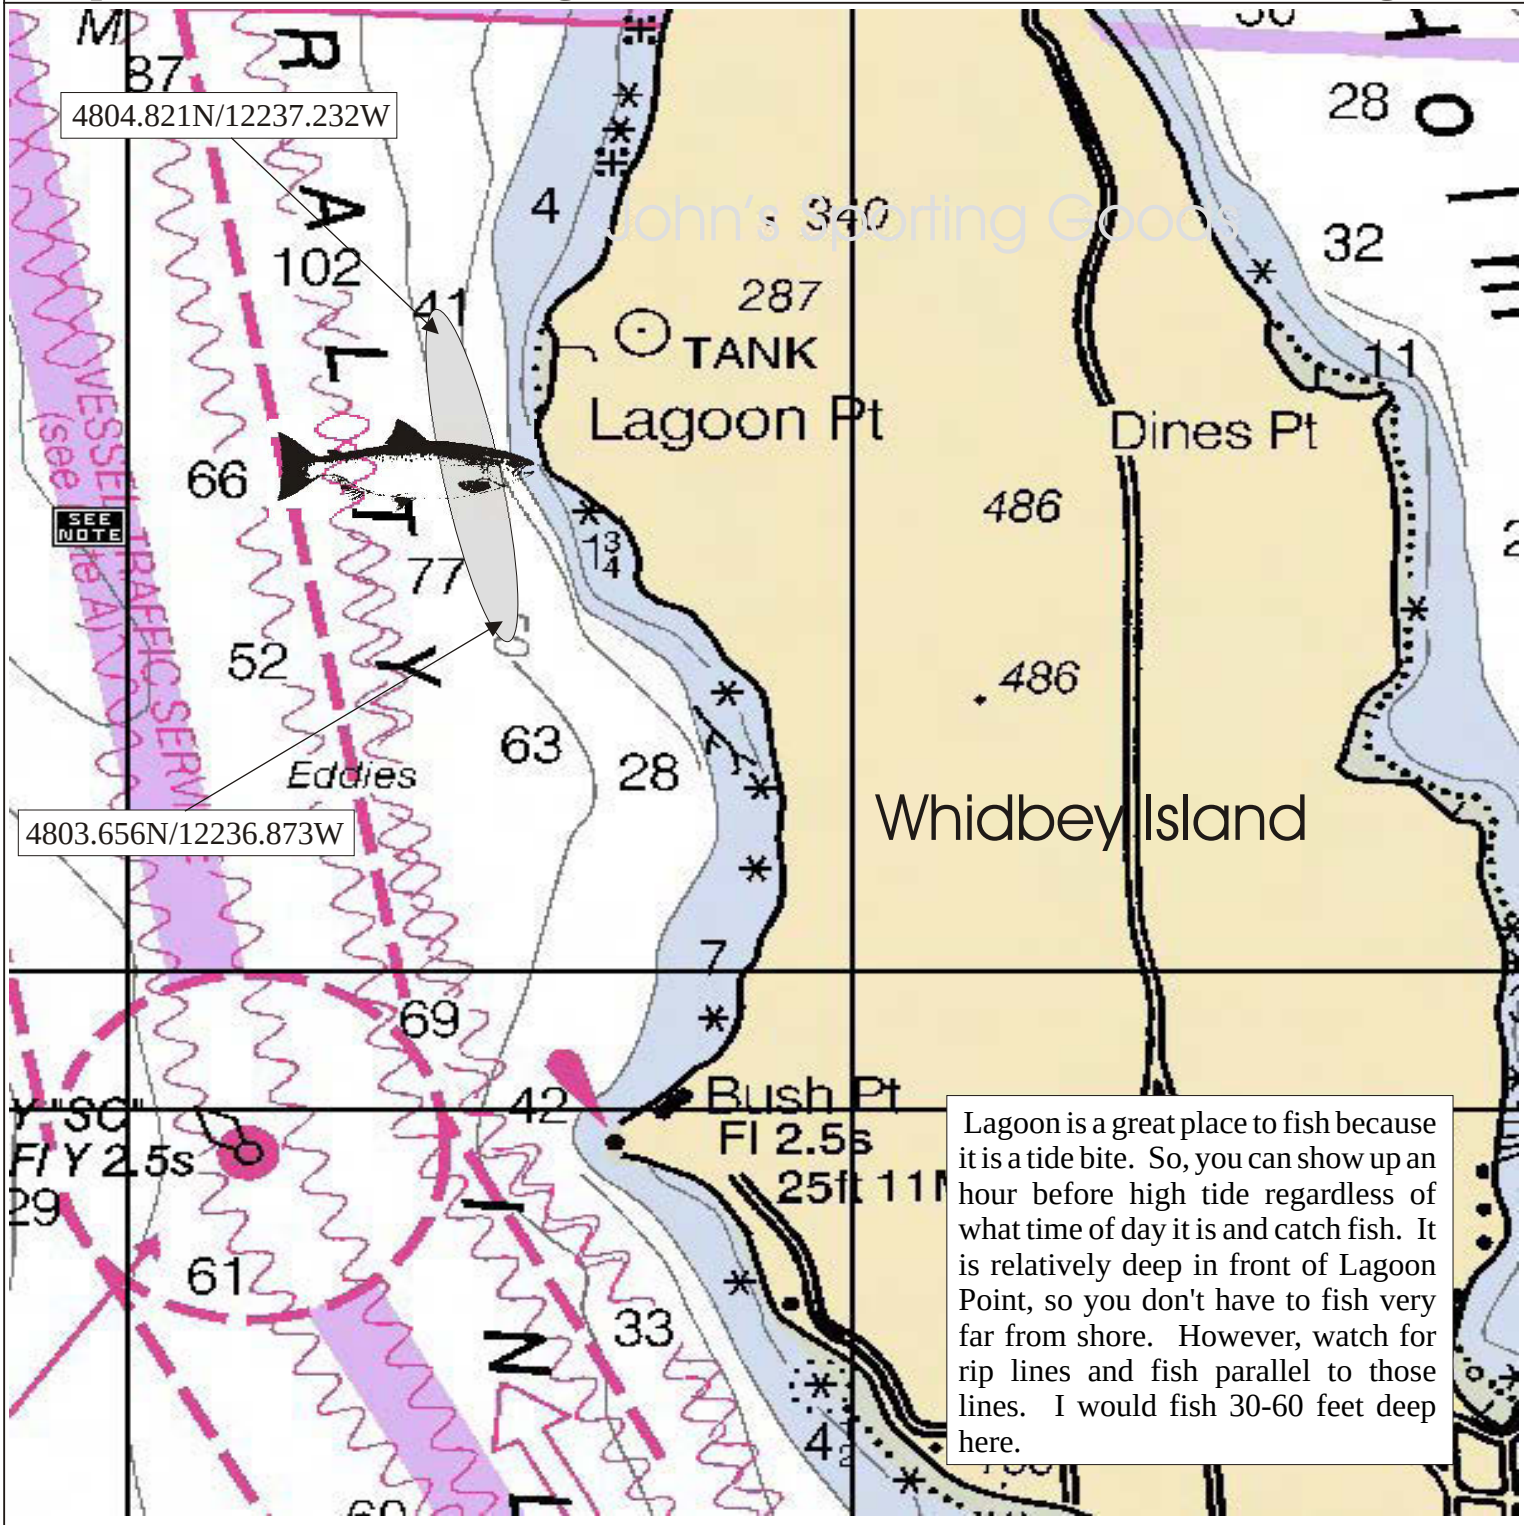
Maps For The Serious Angler

Not Intended for Navigation



Lagoon is a great place to fish because it is a tide bite. So, you can show up an hour before high tide regardless of what time of day it is and catch fish. It is relatively deep in front of Lagoon Point, so you don't have to fish very far from shore. However, watch for rip lines and fish parallel to those lines. I would fish 30-60 feet deep here.
