

Pile Point/Eagle Point

San Juan Island

Fish at Pile Point when the tide is going out. No need to fish close to the bottom at this spot because the Chinook will be suspended. Fish for Chinook here at 60 to 90 feet. The depth can be anywhere from 90-250 feet.

You can fish at Eagle Point close to the bottom or you can fish for suspended Chinook. If you are fishing the bottom, keep your downriggers between 90-120 feet and close to the bottom. You can fish for suspended Chinook between 60 and 90 feet deep. If you are fishing for suspended Chinook, troll along the rips. Fish at Eagle on either tide, however the outgoing tide is often the best fishing.
